

Name + Description	Cost per item	Number of items	Total
Amend the Constitution: The Legal Team will lead an amendment process in Season 3, seeking to complete the formalization of the Accounting, Incubator, and Operations teams. The amendment will also feature a new complaint mechanism for the DAO. We will gather public input, so the amendment addresses any other interests. Our Constitution should remain a source of stability with its clear policies.	12,000 (From last Season)	1	12,500
Report on DAO legal wrappers: One of the goals for Season 2 was to release a report on Legal Wrappers and recommend which wrapper(s) to adopt. The research is finished, so we can complete the new season's deliverables.	18,000 (From last Season)	1	18,000
OpenLaw and Kleros: The Legal Team will research how to integrate OpenLaw for contracts between PeopleDAO and our subDAOs. The Team also needs to pre-set up a neutral arbiter to resolve small claims, insurance, intellectual property, and other contractual issues for PeopleDAO and our subDAOs. We will explore using Kleros, an open-source dispute resolution protocol that uses blockchain to mediate fairly.	20,000	1	20,000
Implementing Complaint Mechanisms: Building on our R&D from last Season, The Legal Team will create and distribute satisfaction surveys to contributors monthly or bimonthly. The purpose is to engage. These surveys will gather information on how contributors feel about the community environment, whether they are happy contributing to the DAO, how their contribution affects their well-being and their recommendations for addressing problems. The Legal and Ops Team will then collate and release a report and support the Core Contributor with responding to any needs.	20,000	1	20,000
Discretionary Funds	23,500 (Includes 13,500 residue funds from Season 2)	1	23,500
		TOTAL	94,000
